

Zain Ali

MERN Stack Developer

 Zainali005 /  rjzainalii /  zainali5002 /  zainali5002@gmail.com /  +923194634198

SUMMARY

MERN Stack Developer with hands-on experience in building full-stack web applications using **React.js, Node.js, Express.js, MongoDB, and Next.js**. Also familiar with **PHP & MySQL** for backend development and server-side scripting. Skilled in creating responsive user interfaces using **Tailwind CSS, Bootstrap, and Chakra UI**. Experienced in REST & GraphQL APIs, Shopify integrations, and database-driven applications. Passionate about learning new technologies and delivering clean, scalable, and maintainable code.

WORK EXPERIENCE

Syncortic

June 2025 – Present

Working as a MERN Stack Developer, contributing to the design and development of scalable web applications using React.js, Node.js, Express.js, and MongoDB. Gaining hands-on experience with Next.js, building responsive UIs with Tailwind CSS, and working with REST APIs for data integration. Collaborating with the team to deliver clean, maintainable code while continuously improving my technical skills.

Hexit Technologies

Nov 2024 – May 2025

Worked as a MERN Stack Developer, focusing on developing and integrating features in web applications using React.js, Node.js, Express.js, and MongoDB. Implemented API integrations to connect external services and streamline application workflows. Built responsive interfaces with Bootstrap and Tailwind CSS, ensuring cross-browser compatibility and good user experience. Collaborated with senior developers to debug, test, and optimize performance while gaining practical industry experience.

PROJECTS

Sehal Welfare Website

July 2024

A responsive website for Sehal Welfare, built using **HTML, CSS, Bootstrap, and JavaScript**. The project includes clear navigation, dynamic content sections, and visually appealing design to effectively showcase the organization's mission, programs, and volunteer initiatives. It also focuses on accessibility and user engagement to reach a wider audience.

StickerBlitz

July 2024 – Dec 2024

A dynamic e-commerce platform built with **Next.js** and **Redis**, integrated with Shopify for efficient product management and fast, real-time page loading. The project includes responsive design, product filtering, and secure checkout functionality.

Finance Tracker Dashboard

June 2024

A comprehensive financial management tool built using the **MERN stack (MongoDB, Express.js, React.js, Node.js)**. This dashboard enables users to track expenses, monitor budgets, and analyze financial data with an intuitive interface and real-time updates.

Syncortic Website

2025

Developed the Syncortic company website using **React.js**, integrating multiple components for service listings, contact forms, and dynamic content management. Focused on responsive design, performance optimization, and clean, maintainable code.

Nova Jewelers E-Commerce Platform

2025

A fully functional e-commerce platform built with the **MERN stack (MongoDB, Express.js, Re-**

`act.js`, `Node.js`). Implemented product listings, shopping cart, checkout system, and responsive UI. Integrated payment gateways and optimized for fast performance.

GoogleDrive Onboarding Tool Development

2025

A Next.js-based tool with PostgreSQL for managing Google Drive folder access. Allows admins to grant or revoke user permissions with proper token handling, expiration, and error management. Built with Zustand for state, TanStack Query for fetching, and ShadCN/UI for a modern interface.

Simple PHP E-commerce (Basic)

Developed a simple e-commerce system using **PHP and MySQL** that displays product listings, allows users to add items to a **session-based shopping cart**, and complete a basic checkout process. The project focuses on core e-commerce logic, PHP sessions, and database integration without using any payment gateway.

PHP Blog CMS

Developed a **PHP Blog CMS** using **PHP and MySQL** that includes an admin panel with secure authentication. The system allows the admin to create, read, update, and delete blog posts, manage content efficiently, and store data in a structured database with session-based login handling.

SKILLS

Programming Languages JavaScript (ES6+), PHP, HTML5, CSS3, SQL

Frameworks / Libraries React.js, Next.js, Node.js, Express.js, Bootstrap, Tailwind CSS, Chakra UI

Databases MongoDB, MySQL, PostgreSQL, Redis

Tools / Platforms Hasura, Shopify API, Docker, Git/GitHub, REST , GraphQL APIs

Other Skills Responsive Web Design, UI/UX, Debugging, Version Control

EDUCATION

2020 – 2024 BS (Computer Science) at **FUUAST Islamabad**

(GPA: 3.4/4.0)

2017 – 2019 FSC (Pre-Engineering) at **FBISE**

(60%)

2015 – 2017 Matriculation (Class 10) at **FBISE**

(70%)
